## Starbird Concepts Has Unveiled New Designs

Rob and Sandy Starbird have created two new metal art designs which debuted at the Springtime in the Country show at Hamburg Fairgrounds March 30 through April 1. The South Wales couple owns the two-year-old business Starbird Concepts.

The first design is called "Owl." The second is a replica of the "Gust of Sun" sign they created for the Niagara County winery of the same name. Twenty of these replicas will be made, each 32 inches wide, and made available at the winery and at the shows where Starbird Concepts exhibits and sells its beautiful creations.

Along with the many shows

and other venues where these creations are sold, many pieces are donated by the Starbirds to such charities as Make a Wish of WNY, the American Cancer Society's Hope Lodge, Equi-Star Therapeutic Riding Center, and Honor Flight of WNY.

The process of making their "artful creations" involves the use of a computer, a plasma tabletop cutter, and an oven for baking the powder coatings used to finish each one. Starbird Concepts makes standardized pieces for sale, as well as custom-ordered creations.

For more information or to view some of the company's creations, visit [www.Starbird-Concepts.com](http://www.Starbird-Concepts.com).
